Hi Everyone,

Kim said the paper with the GenX source water sampling data in Ohio and West Virginia is supposed to be in publication the week before Christmas. Thus, Kim and I were asking our ORD liaison, Carole Braverman, to ask Headquarters what our message is for the public as we anticipate some public interest and no one at Headquarters has responded yet to Kim's earlier inquiry. We don't have a reply yet, but as you can see below, she pushed the message pretty far up the chain. We will let you know if we hear anything.

Have a good night,  
Jenny

Hi Carole,

Thank you for contacting us. By copy, I am informing Betsy Behl and Eric Burneson of your request to make sure that they share with you any communication material stemming from the release of this study. Best, Ed

Hi Ed and Mary,

Region 5 understands that a OSU PFAS Gen X study that was produced with some EPA assistance (see power points) will be released before Christmas. R5 drinking water branch anticipates there will be significant public interest and that the Region will be contacted. Anything you can do to make sure that the right people are in the loop and HQ communication materials reach us in time would be very appreciated. This is a very short timeline.

Thanks for your help,

Carole

Hi Carol,

I attached a presentation I believe Andy Lindstrom gave on November 21. Slide 8 has the GenX data and map. I will see if I can find anything else.

Thank you for talking to Ed and Mary. I appreciate it.

Have a good afternoon,  
Jenny
